Interrogation of a Former East German Army Officer

1. We would like to participate in the interrogation of the former East German army officer who was assigned to the VPK. We understand that he is now available for such interrogation.

2. Attached is a copy of a comprehensive requirement which reflects our needs with regard to the USSR. It should serve to illustrate the type of information we would seek for the USSR, East Germany, and perhaps other Bloc countries. Our particular interest with regard to East Germany is reflected by the questions under the headings dealing with military finance; prices, costs and cost factors; personnel expenditures; trade in military items; and occupation and stationing costs.

3. The services of an interpreter would be required.
